## Acknowledgements

This dissertation concluded a learning and research process of several years. I was acquainted with the topic of corporate values in more detail by Thomas Uhlenbrock of Wertfeunde and set to think about the values they add to a company by Professor Eileen Roddey of the University of Salford. With the guidance and expertise of Professor Perry Haan, a dissertation proposal came to life which formed the basis for this research. My facilitator for this dissertation, Professor John Cooper, provided me with support and encouragement as well as quick responses whenever I needed them. I am most grateful to every one of them.

My sincere thanks go to the group of companies in which the research took place and whose name is not disclosed in this dissertation, particularly to its managing directors and executives. They shared their impressions, their perceptions, and their expectations on corporate values with me extensively. They provided me with the data I needed to conduct this research successfully and allowed me to use it.

Above all others, I am most grateful to my wife and children. They shared the limited time we have together with my dissertation project for three years and encouraged me to continue when I was not sure where this project would lead me.

Heiko Filthuth, June 2019

## Table of Content

Acknowledgements .....	5
Table of Content .....	6
Tables and Figures.....	15
Abbreviations.....	16
1. Introduction .....	1
1.1 Structure of this dissertation.....	1
1.2 Background to the research.....	2
1.2.1 A group of companies as the research environment .....	3
1.2.2 Four corporate values.....	3
1.2.3 The corporate value implementation process .....	4
1.3 Rationales for the research.....	5
1.4 Research model .....	5
1.4.1 Developing the research model.....	5
1.4.2 From corporate values to measurable effects.....	6
1.4.3 Forming two consecutive research steps.....	7
1.5 Research questions .....	7
1.6 Aims and objectives .....	8
1.6.1 Collecting determinants .....	8
1.6.2 Measuring the effects .....	9
1.7 Delimitations for a sufficient focus.....	9
1.7.1 Size of research .....	9
1.7.2 Specific timeframe .....	10
1.7.3 Consideration of answers .....	10
1.7.4 Disregarding direct financial effects and shareholder value.....	10
1.8 Limitations influence findings .....	11
1.8.1 Executives provide determinants .....	11
1.8.2 Making interpretations comprehensible.....	11
1.8.3 Not all influences can be considered .....	11
1.8.4 Influence of the researcher.....	11

1.8.5	The issue of language.....	12
1.8.6	Cooperation of the executives.....	12
1.9	Overview of the methodology.....	12
1.9.1	Collecting determinants in a narrative enquiry.....	13
1.9.2	Adding secondary data and assessing the influence .....	13
1.10	Structure of the dissertation .....	13
2.	Literature Review .....	14
2.1	Identifying key words .....	14
2.2	Filtering five review topics .....	14
2.3	Composing subtopics for structure .....	15
2.4	Introduction of literature review topics.....	16
2.5	Delimitations and limitations in the literature review.....	17
2.5.1	Focus on recent, peer-reviewed, and online available literature	17
2.5.2	Not all literature was considered.....	18
2.6	Topic 1: Corporate values and the management.....	18
2.6.1	Increasing managerial tasks .....	18
2.6.2	Linking management and corporate values .....	19
2.6.3	Workplace awareness and disputes.....	19
2.7	Topic 2: Corporate values and benefits.....	20
2.7.1	Different conclusions from the same data .....	20
2.7.2	Influence of industry and ownership.....	20
2.7.3	More research is needed.....	21
2.8	Topic 3: Corporate values and employees .....	21
2.8.1	Evolvement of recognition and understanding .....	21
2.8.2	Positive motivation can be enhanced.....	22
2.8.3	Grasping the complexity .....	22
2.9	Topic 4: Corporate values and employee performance .....	23
2.9.1	Influence of humanistic values .....	23
2.9.2	Corporate values influence employee performance.....	23
2.9.3	The importance of human resource development.....	23

2.9.4	Not all findings are clear.....	24
2.10	Topic 5: Measuring corporate values.....	24
2.10.1	Performance indicators need to be found.....	24
2.10.2	Suggested measurements .....	25
2.11	Conclusions from the literature review .....	25
2.12	Room and scope for further research .....	25
3.	Methodology.....	26
3.1	Applying the Research Onion .....	26
3.2	Research philosophy .....	26
3.2.1	Interpretivist approach .....	27
3.2.2	Abduction reflects the need for interpretation .....	27
3.2.3	Multi-method research .....	27
3.2.4	Narrative enquiry and secondary data research .....	28
3.2.5	Support through pilot study .....	28
3.2.6	Two consecutive research phases .....	28
3.3	Research frame in a group of hospital service companies.....	29
3.3.1	Research in a fairly stable environment.....	29
3.3.2	Eighty-eight executives participated.....	29
3.3.3	Share of participants by company is of minor relevance.....	29
3.3.4	Scheduled group interviews for Research Question 1 .....	30
3.3.5	Access to company data for Research Question 2.....	30
3.3.6	Comparative measurement without and with corporate values .	31
3.4	Research design.....	31
3.4.1	Design for Research Question 1 .....	31
3.4.1.1	Step 1: Collecting interview data.....	31
3.4.1.2	Use of questionnaires .....	32
3.4.1.3	Guidelines for the participants .....	32
3.4.1.4	Role of the researcher .....	33
3.4.1.5	Step 2: Adding determinants suggested in the literature .....	33
3.4.1.6	Step 3: Examining the data .....	33

3.4.1.7	Considering the usability based on the pilot study .....	34
3.4.1.8	Step 4: Creating the database.....	34
3.4.2	Design for Research Question 2 .....	34
3.4.2.1	Steps 1 and 2: Explaining the benefits and measurements .....	35
3.4.2.2	Step 3: Assessing the amount of other influences .....	35
3.4.2.3	Step 4: Gathering the secondary data .....	35
3.4.2.4	Steps 5 and 6: Calculating the difference .....	36
3.5	Research data analysis.....	36
3.5.1	Constructing the database .....	36
3.5.2	Research Question 1: Labelling and grouping the data .....	37
3.5.2.1	Step 1: Primary coding under three aspects.....	37
3.5.2.2	Step 2: Secondary coding for topics and harmonisation .....	38
3.5.2.3	Step 3: Triangulation for consistency and interrelations .....	39
3.5.2.4	Resulting database .....	40
3.5.3	Research Question 2: Analysing the secondary data .....	40
3.5.3.1	Steps 1 and 2: Explaining benefits and measurements.....	40
3.5.3.2	Step 3: Assessing the degree of relationship .....	41
3.5.3.3	Step 4: Requesting, receiving, and verifying secondary data....	41
3.5.3.4	Step 5: Adding the data and calculating the differences .....	42
3.5.3.5	Step 6: Testing for improvements.....	42
3.6	Research administration .....	43
3.6.1	Handling the data .....	43
3.6.2	Storing the files .....	43
3.6.3	Protecting participants through anonymity .....	43
3.7	Ethical issues.....	44
3.8	Reliability .....	44
3.9	Validity.....	44
3.10	Conclusions on the methodology.....	45
4.	Results.....	46
4.1	Order of results' presentation.....	46

4.2	Separation of discussion and conclusions .....	46
4.3	Data analysis for Research Question 1 .....	47
4.3.1	From questionnaires to usable data .....	47
4.3.2	Initial database layout .....	48
4.3.3	Number of benefits and measurements per participant .....	48
4.3.4	Value points and number of mentions: Fairly equal shares .....	49
4.3.5	No further unusable data strings .....	49
4.3.6	Iterative coding of narrative answers: Six main topics .....	49
4.3.7	Value points per harmonised benefit show wide spread .....	50
4.3.8	Harmonising measurements to 14 topics .....	51
4.3.9	Forty harmonised measurements .....	52
4.3.10	Creating a secondary database .....	53
4.3.11	Triangulations confirm results .....	54
4.3.11.1	Four benefits in the focus .....	54
4.3.11.2	Most benefits relate to employee topics .....	55
4.3.11.3	Sixty percent proposed three or more times .....	55
4.3.11.4	Measurements refer equally to hard and soft facts .....	56
4.3.11.5	Employee survey single most referred to source .....	56
4.3.11.6	More than one measurement for almost all benefits .....	57
4.4	Data Analysis for Research Question 2 .....	58
4.4.1	Step one: Explanation of harmonised benefits .....	59
4.4.1.1	Employee-related benefits .....	59
4.4.1.2	Organisation-related benefits .....	60
4.4.1.3	Management-related benefits .....	61
4.4.1.4	Performance-related benefits .....	61
4.4.1.5	Customer-related benefits .....	61
4.4.1.6	Job applicants-related benefits .....	62
4.4.2	Step 2: Explanation of harmonised measurements .....	62
4.4.2.1	Measurements using the employee survey .....	63
4.4.2.2	Measurements using the personnel database .....	63

4.4.2.3	Measurements using the QM databases.....	64
4.4.2.4	Measurements using the CRM databases .....	65
4.4.2.5	Measurements using the sickness database .....	65
4.4.2.6	Measurements using the jobs database .....	65
4.4.2.7	Measurements using the finance database.....	65
4.4.2.8	Measurements using the customer survey .....	66
4.4.2.9	Measurements using the CAFM database .....	66
4.4.2.10	Measurements using the user survey .....	66
4.4.2.11	Measurements using the cooperation survey .....	66
4.4.2.12	Measurements using the conference list and calendar survey.	67
4.4.2.13	Measurements requiring new surveys .....	67
4.4.3	Step 3: Assessing other influences on the measurements.....	67
4.4.3.1	Considering the extent and sources of other influences .....	67
4.4.3.2	Calculating the average influence and three quartiles .....	68
4.4.3.3	Other influences predominately of medium strength .....	69
4.4.4	Step 4: Gathering data from the companies' sources .....	70
4.4.4.1	Deviations between requested and provided data.....	70
4.4.4.2	Table of received data.....	70
4.4.5	Step 5: Calculating the statistical difference.....	71
4.4.5.1	Small changes in eight cases.....	72
4.4.5.2	Database sources show higher change than survey sources .....	73
4.4.5.3	More increases than declines .....	73
4.4.5.4	Consolidation of statistical differences per benefit .....	73
4.4.5.5	Results for Better communication with employees .....	74
4.4.5.6	Results for Better cooperation .....	74
4.4.5.7	Results for Clearer structure and processes .....	74
4.4.5.8	Results for Faster implementation of decisions .....	75
4.4.5.9	Results for Fewer conflicts with employees .....	75
4.4.5.10	Results for Fewer sick days .....	76
4.4.5.11	Results for Higher acceptance of decisions .....	76

4.4.5.12	Results for Higher customer satisfaction.....	76
4.4.5.13	Results for Higher demand for qualification by employees ....	77
4.4.5.14	Results for Higher employee motivation.....	77
4.4.5.15	Results for Higher employee retention.....	77
4.4.5.16	Results for Higher employee satisfaction.....	78
4.4.5.17	Results for Higher employer attractivity.....	79
4.4.5.18	Results for Higher mutual reliability.....	79
4.4.5.19	Results for Higher mutual respect.....	79
4.4.5.20	Results for Higher number of customers.....	79
4.4.5.21	Results for Higher productivity.....	80
4.4.5.22	Results for Lower pressure on the management.....	80
4.4.6	Step 6: Conducting the paired t-test per benefit.....	80
4.4.7	Considering the level of influence and positive change.....	81
4.5	General remarks.....	82
5.	Discussion.....	83
5.1	Comments and arguments from interviews and questionnaires ...	83
5.2	Corporate values and benefits were sufficiently related.....	83
5.3	Even benefits with only a few mentions were included.....	83
5.4	Thirty-five determinants were found.....	85
5.4.1	Widespread level of relevance in determinants.....	85
5.4.1.1	Behaviour-related determinants sufficiently relevant.....	86
5.4.1.2	Improvements and innovations relate positively to values.....	86
5.4.1.3	High other influences on job vacancy-related determinants.....	87
5.4.1.4	Deviating assessments of other influences for finance figures..	87
5.4.1.5	Growth of business only limitedly related to corporate values ..	87
5.4.2	Answering Research Question 1.....	88
5.5	Most determinants showed a notable degree of positive change..	89
5.5.1	Surveys have a higher potential for influence than databases ...	89
5.5.2	Multitude of determinants mediates other influences.....	90
5.5.3	Importance and significance of employee survey.....	90

5.5.4	Customer and user survey were not tampered with.....	91
5.5.5	Disclosed cooperation survey for high reliability.....	91
5.5.6	Simple lists add to research results .....	91
5.5.7	Personnel database found highly reliably and relevant .....	91
5.5.8	QM: Reliable database but in parts high other influences .....	92
5.5.9	Data from CRM not 100% reliable.....	92
5.5.10	High quality finance data but multiple influences on results ...	92
5.5.11	CAFM database results highly relevant.....	92
5.5.12	Consideration of seven determinants .....	93
5.5.12.1	Reduced level of influence for contribution to turnover .....	93
5.5.12.2	Medium other influences on number of new customers.....	93
5.5.12.3	Processes and sick days have high other influences.....	94
5.5.12.4	High level of influence for application-related determinants..	94
5.5.13	Key findings from results for 35 determinants .....	95
5.5.13.1	Sixty-three percent of the determinants developed positively.	95
5.5.13.2	Other influences dominate negatively related determinants....	96
5.5.13.3	High, medium, and low level of change for one third each....	96
5.5.13.4	Few positive determinants with high other influences .....	97
5.5.13.5	Substantial changes predominately in database sources.....	97
5.5.13.6	Seventy-two percent of all benefits showed positive changes	97
5.5.14	Answering Research Question 2.....	98
5.6	Summary of the results and their discussion.....	99
6.	Conclusions and Recommendations.....	100
6.1	Summary of the study .....	100
6.2	From conclusions to recommendations.....	100
6.3	Conclusion 1: Corporate values can be measured .....	101
6.4	Conclusion 2: Corporate values add value.....	101
6.5	Conclusion 3: Influences are to be considered carefully .....	102
6.6	Conclusion 4: All results might require interpretation .....	102
6.7	Revisiting the limitations .....	103

6.7.1	Stakeholder analysis mediated limitations.....	103
6.7.2	Detailed results address subjectivity .....	103
6.7.3	Structural assessment of influences found valuable .....	104
6.7.4	Careful consideration of groupwork and researcher influence	105
6.7.5	Issue of language compensated for .....	105
6.7.6	Availability of data found as an additional limitation .....	106
6.7.7	Quality of source was considered .....	106
6.8	Generalisation and transferability of the results .....	106
6.9	New and original findings .....	107
6.10	Direction for further research.....	108
6.11	And finally, if you consider introducing corporate values ... ..	108
